
ISAAC GLAD

Taylorsville, UT 84129 ♦ (385)377-2138 ♦ isaacglad2025@gmail.com ♦ www.linkedin.com/in/isaac-glad

PROFESSIONAL SUMMARY

- Extensive experience in problem-solving and customer relations, ensuring customer satisfaction in fast-paced, changing environments. Proficiently uses knowledge of collaborative development environments and methodologies to drive success. Expertise in software development, programming languages, database management, and cloud computing shows a strong commitment to deliver high-quality results.

EDUCATION

Bachelor of Applied Science: Software Engineering, Expected in 01/2027

- **Ensign College** - Salt Lake City, Utah

PROJECTS

Claude-SQL server MCP connection *for Contract Appliance*

Summer 2026

- Developed 9 C# MCP tools that enable efficient AI-driven querying of a 200+ table legacy SQL Server database supporting financial and sales reporting. Deployed the server securely end-to-end and established automated continuous integration workflows via GitHub actions.
